

## Christmas Every Day

### Verse 1

Time to celebrate has come, family and friends are here  
The gifts are piled up high to the ceiling, there is no more room to spare  
Looking around I see a twinkle, it's coming from my heart  
I've learned to look away, it's easy  
What a shame, what a shame, what a shame

### Chorus 1

Christmas can be every day  
Giving and sharing just for play  
Imagine this place, imagine your days  
Imagine waking up in extraordinary ways  
Christmas can be every day  
Caring and loving without pay  
Imagine your heart, imagine your mind  
Imagine a place where there's nothing to hide  
Christmas can be every day

### Verse 2

Now the time is lost forever, it's time to run at last  
Forgotten is the spirit of giving, closed unit years past  
Pausing I see a light in the hallow, it's coming from my heart  
I've learned to look away, it's easy  
What a shame, what a shame, what a shame

### Chorus 2 (same Chorus 1)

### Bridge

When Christmas is gone, that's easy to know  
The lights are off and there is no snow  
When Christmas is gone, let's not forget  
The Spirit never rests

### Chorus 3 (same Chorus 1)

The End
